## ***PREFACE***

*The ad valorem tax exemption for qualifying manufacturing concerns was created by State Question No. 588 and adopted by a vote of the people on April 10, 1985. Oklahoma Constitution, Article X, Section 6B*

*The five-year ad valorem tax exemption exempts all real and personal property that is necessary for the manufacturing of a product and facilities engaged in research and development which meet the requirements set for the by the Oklahoma Constitution and Statutes.*

## *PURPOSE OF THE REPORT*

*This report has been prepared for the Oklahoma Tax Commission as an annual accounting for claims received pursuant to title 62 O.S., Section 193 for loss of revenue due to exemption of new or expanded manufacturing facilities.*

*The county commissioners of each county seeking reimbursement for lost revenue have made claim for reimbursement to the Oklahoma Tax Commission. Disbursement from the fund shall be made on warrants issued by the state treasurer against claims filed by the Commission with the Office of State Finance for payment.*

## ***DESIGN OF THE REPORT***

*This report has been developed by the Ad Valorem Division of the Oklahoma Tax Commission and according to the Rules and Regulations for Ad Valorem Tax Exemptions for Manufacturing Facilities promulgated and issued by the Oklahoma Tax Commission in accordance with 68 O.S. 2902. The report has been designed to reflect the level of county claims for reimbursement and to indicate an overall profile of the exemption programs.*

*The report consists of two sections:*

- 1. Historical reimbursement and growth*
- 2. Findings and recommendations for approval*

## *CONDENSED OVERVIEW*

*Qualifying applicants must meet at least one of the following criteria:*

- 1. Facilities engaged in the mechanical or chemical transformation of materials or substances into new products.*
- 2. Facilities defined or classified under the North American Industry Classification System (NAICS), latest revision.*
- 3. Facilities, including repair and replacement parts, primarily engaged in aircraft repair, building and rebuilding whether or not on a factory basis.*
- 4. Establishments which are primarily engaged in computer services and data processing as defined under an industrial group number as authorized by statute, and which derive at least 50% of annual gross revenues from the sale of a product or service to an out-of-state consumer as defined under an industrial group number as defined per statute, which derive at least 80% of gross annual revenues from the sale of a product or service to an out-of-state buyer or consumer.*
- 5 Establishments engaged in research and development activities directly related to and conducted for the purpose of discovering, enhancing, increasing or improving future or existing products, processes or productivity, purpose of discovering, enhancing, increasing or improving future or existing products, processes or productivity.*
- 6. Establishments primarily engaged in distribution as defined under Industrial Group Number or Major Group Number as authorized by statute, latest revision.*
- 7. An entity engaged in electric power generation by means of wind, as described and authorized by statute.*

## ***ASSET ELIGIBILITY***

*Eligible assets may include land, building, structures, improvements, fixtures, machinery, equipment and other personal property used directly and exclusively in the manufacturing process. The phrase "manufacturing process" is of great importance. It was not the intent of the legislature to give an exemption to every business but to attract new business and give an incentive to those businesses that will increase Oklahoma's productivity and provide more jobs. Assets which are not directly involved in the manufacturing process are excluded from the exemption for this reason. Assets such as office equipment break room articles, restroom improvements, and time clocks, etc. are ineligible. Only assets acquired for expansion are eligible. Replacement assets are ineligible.*

*Eligible assets are grouped according to the year in which they were acquired or placed in service. There is only one asset group per application. The exception to this asset group rule is if a manufacturing concern transfers assets from out-of-state. These assets may have been acquired in various years but, for taxing purposes, will be treated as one asset group. Each application is treated separately throughout the lifetime of the exemption. It is the responsibility of the applicant to file the application properly. It is recommended that the application list eligible assets in the Oklahoma Tax Commission form or follow a similar format.*

## *REAL PROPERTY*

*Any exemption application concerning real property must meet the requirements set forth by the Oklahoma Constitution, Statutes and Oklahoma Tax Commission Rules and Regulations.*

*Land and buildings used directly in the manufacturing process or research and development may be eligible.*

*Any exemption application covering property must meet the constitutional twelve-month vacancy requirement and be accompanied by:*

- A. A complete copy of the warranty deed or lease*
- B. A copy of the county assessor's data record*
- C. A county map showing exact location of the property*
- D. A plat of the property*

*An affidavit or letter may be required to confirm the twelve-month vacancy status of the assets in question.*

*The above-mentioned items must be furnished only once (with the exception of the copy of the county assessor's field card) in the lifetime of the exemption unless specially requested by the Oklahoma Tax Commission or a change in eligible status occurs.*

## ***ELIGIBLE LEASED ASSETS***

*Leased assets become eligible for exemption when the qualifying manufacturer holds equity title.*

### ***EXAMPLE***

*If the qualifying manufacturer leases an asset for ten years and at the end of the ten-year period title transfers to the lessee, the lessee is said to have "equity title". The lease is acting as a mortgage under Oklahoma law.*

*If the lease has a purchase option for "market value" or a pre-determined value for an amount other than "nominal", the lease **is not** acting as a mortgage and is strictly a "net lease" which would not be eligible for the exemption.*

## ***PERSONAL PROPERTY***

*Exemption applications concerning personal property must meet the requirements set forth by the Oklahoma Constitution and Statutes.*

*In general terms, this means that only those assets used directly and exclusively in the manufacturing process or research and development are eligible.*

*When claiming personal property, an itemized list must accompany the application. There are no exceptions.*

*If there is a question on an eligible asset, the applicant will be required to provide substantiating documentation to the Oklahoma Tax Commission upon request.*

***HISTORICAL REIMBURSEMENTS  
AND GROWTH***

## HISTORICAL AND ACTUAL REIMBURSEMENTS AND GROWTH FIVE-YEAR EXEMPT MANUFACTURING REIMBURSEMENTS

***INTERPRETATION***  
***OF DATA***

## ***INTERPRETATION OF DATA***

*The format used for the county summary information is presented in computer format. The exempt year designation indicated the current year of eligibility.*

***EXAMPLE:           ABC Manufacturing           XM-4***

*ABC Manufacturing is currently in the third year of eligibility for a specific asset group. The reimbursement is calculated for calendar year 2008 acquisitions claimed for exemption for tax year 2012. This asset group will have one year of remaining eligibility.*

*The amount claimed is the actual dollar amount that the county has claimed for reimbursement. These claim amounts have been audited by the Ad Valorem Division and submitted to the Oklahoma Tax Commission for approval.*
